

## Your health is our top priority

You can count on us for the latest information on COVID-19 and how to get the care you need — when you need it.

Para información en español, haga [clic aquí](#).

### Important information:

- **COVID-19 vaccine** — We're actively reaching out to members 75 years or older to schedule vaccine appointments, starting with people at the highest risk of exposure or complications due to COVID-19. Check your vaccine status and any available next steps by signing in to our [COVID-19 vaccine site](#).

We expect our vaccine supply to increase over the next few weeks and are committed to vaccinating members 65 and older as soon as more doses become available. As supply increases, we'll continue to expand priority groups to include additional age groups, risk factors, and occupations as directed by the state. If you can get vaccinated somewhere outside Kaiser Permanente, such as your employer, your local health department, or another approved vaccine site, we encourage you to do so.

For more information about our vaccine distribution plan, visit [kp.org/covidvaccine](https://kp.org/covidvaccine). You can also call our 24/7 recorded message hotline at 1-855-550-0951 (available in English and Spanish) for regular updates.

- **Northern California vaccinations by the numbers** — We're making the most of our vaccine supply and are quickly administering the vaccine we receive. To date, of the 269,500 doses provided to us by the state of California, we've given 261,541 doses and have scheduled appointments to deliver the rest.

- **Vaccination hubs now open** — Health care organizations in California, including Kaiser Permanente, are also joining together to vaccinate our members and the public with a network of COVID-19 vaccination hubs throughout the state. Our goal is to quickly vaccinate eligible groups, including people 65 and older, as prioritized by the California Department of Public Health. Appointments are available as vaccine supply allows. The doses given to vaccine hubs are a separate supply distributed by the state and don't affect how many doses each participating health care provider receives for their own membership.

See if you're eligible and find vaccination hubs near you at [myturn.ca.gov](https://myturn.ca.gov).

### More resources:

- [Care by phone, video, or online](#)
- [Flu shot locations](#)
- [Local facility updates](#)
- [Self-care resources and tools](#)
- [Loss-of-coverage information](#)
- [Thrive Local Connections](#) — Connect to community resources for essentials like housing, child care, or food by calling us at **1-800-443-6328** (TTY **711**) and asking about our Thrive Local Connections program.\* Please don't call the Thrive Local Connections phone number with vaccine questions.

Remember, we're in this together. With your help, we can reduce the spread of COVID-19.
